

LAPFF looks to Sellors for experience

Pensions Week, 25th February 2009

The Local Authority Pension Fund Forum (LAPFF) has appointed David Sellors to the position of chief operating officer.

Joining from Capital International, Sellors takes up a newly created role at the forum comprising 48 public sector pension funds.

Sellors revealed: "Our next step is to formalise our constitution to better reflect our critical mass and enable us to carry on our work more effectively."

Ian Greenwood from the West Yorkshire Pension Fund and chair of LAPFF said: "David's experience will be invaluable to us, particularly in the light of recent developments on capital markets and in the world of investment management generally."
